

**Abstract**

The present invention discloses pet accessories such as pet packs and coats which attach easily and allow a pet to carry its belongings.

5 In one embodiment of the invention, pet pack comprises a top side with a plurality of pockets, a hook and eyelet fastener which attaches to existing pet harnesses. In another embodiment, a pet coat which at least substantially covers a pet is comprised of a durable, water resistant material. The pet coat also comprises a pocket and a hook and eyelet fastener which attaches to exiting harnesses.
